

General Achievements

Bearing in mind [that]:

- 1) the *Czenstochover Landsmanshaft* consists of [only] about eighty families;
- 2) nearly 90% of the *landsleit* are newcomers, who have themselves made the road of suffering in the times of the Nazi tyranny;
- 3) the socio-economic state of the *landsleit* is a varied one, but the majority are workshop labourers
- 4) the activity is conducted without any administrative expenditure; and
- 5) the meetings of the Executive take place in private homes, that each meeting is held at a different location at the house of a member of the Executive, where we are all graciously welcomed,

it must, therefore, be affirmed that the extensive activities of the *Czenstochover Landsmanshaft of Montreal* in raising financial means, sending aid to *landsleit*, connecting with other *Częstochower* institutions, as well as communal, cultural and publishing activities, deserve attention and acknowledgement accordingly.
