The Book Committee

Dr Ludwig Batawja

After finishing high school in Częstochowa and studying medicine at the University of Warsaw, he trained abroad and became a specialist in laryngology.

From 1939, Dr Batawja was the Director and Head Doctor of the Jewish Hospital. He was *Prezes* of "*Dobroczynność*" [Charity] and of the scientific division of the Physicians Union, a member of the Combatants union and of many other communal and scientific organisations.

He died at the age of 68.

A very large crowd attended his funeral. The children of the orphanage walked before his coffin and Dr Bram eulogised him warmly.
